

Let your hair regain power!

Thinned shag you? Reach for the cosmetics and tonic preparations. The hair will grow faster and be more dense than ever before. Recently started to fall out your hair. At the beginning of the brush was left a bit more than usual, now go out handfuls. While a few days ago that did not completely, now the situation has changed.

You have the impression that you have been half the hair. You see them on the pillow, in the bathtub, on the blouse. You start to panic ... Calm down! There are ways to stop hair loss and accelerate the regrowth of those that already came out. Women lose hair differently than men. We thinning head of hair all over his head, and the gentlemen - from the forehead and temple area. For women, hair may fall out due to severe stress, strong infection (eg influenza), irrational diet, taking certain medications, or hormonal fluctuations of pregnancy, childbirth or menopause. When you finish treatment, you start to eat healthily, or to calm hormonal swings associated with pregnancy, your hair will grow back the same. Otherwise it may be in the case of menopause, but then it may help to hormone replacement therapy. In men, the cause of alopecia is not fully known. We know that this tendency is hereditary and depends on the level of hormones, especially testosterone. In some places, men's skin produces enzymes converting testosterone to a substance which causes the decrease in the hair follicle. When hair is healthy, in its place grows thinner. Sheath around the same time, lives, from which hair grows, cures. Do not pass it the nutrients, so the hair is weaker. When the falls, do not grow back. Regardless of the reason his hair fall out, you may want to use strengthening treatments. None of them will make the bald head will grow a thick head of hair. Certainly, however, may accelerate hair regrowth and significantly strengthen it. Preparations in ampoules improve blood circulation of the scalp, prevent hair sheath fibrosis and nourish the skin. To therapy resulted in, you have to use it for at least several weeks and repeat 2-3 times a year. Your hair fall out, although not recently and not greater stress? The problem may stem from the weakening of the body. Reach for the oral preparation reinforcement, such as Ha-pantotén Classic. It contains 22 ingredients, including vitamins and minerals and green tea extract. Inhibits hair, protects them against splitting and loss of gloss. It strengthens the skin and prevents aging.
