## Show me your hands, and I'll tell you how old are you

Each of us knows how it is very difficult to prevent skin aging hands. This is because it is impossible to hide them or protect from the sun during the housework. Regular use of olive, protective moisturizing hand cream NANTES protect our hands from harmful external factors.

Beautiful, healthy nails, skin velvety soft hands is a dream of many women, because they are part of our beauty and femininity, regardless of age. Our hands are always exposed and vulnerable to external factors such as wind, cold, sun, pollution and chlorinated water, chemicals and detergents. For this reason, it is very important proper care both at home and in beauty parlors. It is said that show his hand, and she can tell me the truth. Condition your skin and nails reflect the condition of our body. We should not only to beautify it but also take care of their conditions so you should occasionally look at her suspiciously hands. Hand cream should always be at your fingertips. We find it in most of the night cabinets, drawers, desks at work. They should be tailored to the season. Creams for the summer must be lighter. We should pay attention to the ingredients contained therein to delay skin aging, prevent violations and splitting nails, combat free radicals and prevent the appearance of dark spots. Such compounds include vitamin E, A, C and activated pro-vitamin B6 and creatine contained in creams strengthen nails. All the cosmetic and dietary supplements can help to a limited extent and effects can be seen only after a few weeks. Therefore, we take advantage of this, which gives rise to nanotechnology and cosmetics produced by this method. Water treatment technology gives a completely new properties of substances and increases the potential for its application TES, a manufacturer of innovative NANO available including Nantes.pl store used in cosmetics series NANO AQUA + as a carrier of nutrients is of particular properties. Intense Moisturizing Cream for hands and nails NANO + Aqua Perfect Body strengthens nails, calluses and smooths skin drying hands, lightens discoloration. Nanoparticles water, enriched in nanotechnology processes of olive oil and a complex of vitamins, penetrate the deepest layers of skin from the inside by strengthening it, making it resistant to harmful factors. The hands are part of the body, which reveals our true age. Well-groomed hands are a smooth, even and without stain nails. Only then is a perfect showcase of women. Daily use of cream for hands and nails from the line Perfect Body NANTES care is the basis also for the most demanding skin.
