

Hairstyle can work wonders

Sometimes the most important element in the metamorphosis of Cinderella princess. Regardless of what is the density of your hair, you can choose the hairstyle that will enhance the appearance. Achieve the desired effect when you match the hairstyle to the shape of the face.

Appropriate styling can help you further expose your beauty and conceal what is not necessarily to your advantage. Appropriately aligned and trimmed hair may be attenuated features, lengthen or shorten the jaw, mouth. More than one star, after seeing a good stylist, gave up putting into the hands of plastic surgeon. But before we will select the perfect hairstyle, you need to determine what shape is your face. Not at all easy at first glance to assess whether it is square, triangular, oval or round. So gather your hair back, stand before the mirror with lipstick in his hand and its own reflection. You can also use a photo ID with proof, or by selecting the contours of a pen. Everything clear? If you have a broad forehead, clearly defined cheekbones and a slight beard, broad beans in a classic you will be well. To fit a triangular face and semi-long hair shaded. Locks do not interfere. Make a hair in the side and hair behind her ear, to divert attention from the cheekbones. Well you will in the short-bang, but if you prefer a longer, be sure to uncover part of the forehead and cheeks hide a bit.

Too narrow, lower part of the face, extend the fluffy hair or twisted ends. Tips can also strongly shade and swiveled out. Regardless of current trends, and forget about short men. Not for you face the front, horse tails, high coca or shaved neck. Bringing together smoothly hair or neck after the discovery of natural visibility to just a triangle, giving a sharp, unpleasant features. You are lucky if you have a high forehead and slightly elongated chin, as a woman with an oval face fits virtually any hairstyle. You should look in the most nicely smooth or slightly wavy (retro), preferably with a fringe. It may be polite and be equal, but fancifully frayed. Fringe of hair combed to one side will you rejuvenation. However, if you do not like, without affecting the appearance of them can even totally abandoned. It would not hurt to emphasize cheekbones: this will allow hair combed smoothly back (if you wear long), or just shaded them at the cheeks (when you're short). Hair tips, you can quibble or leave freely falling over her shoulders. So were freshly cut: even you will not add to the charm. If you forget the dissolved hair, parted in the middle, you can almost always look really good. Full cheeks, round chin and high forehead are very specific to the child's mouth, but there are, and mature women. To fit a round face hairstyles simple, carefully shaded. Bangs on the side, and preferably not at all, never equal. Temples and ears covered. Long hair: just simple. Semi-long: with a slightly rolled-up tips. In short (so not too short) to verify continued to be very delicate or very jagged ends that occur on the cheeks.

Face square, or with protruding cheek bones, broad forehead and jaw, he likes simple, long hair. If the cut is the claw. Angelic curls. About bang rather forget, but if it is, let it be long or truncated obliquely, and graded. Hide massive lower jaw with torn villi, occurring on the face. Forget once and for all the hair, with straight fringe.
